MILK
SYSTEM**

*Modern
Simplicity*

The Egro ONE Quick-Milk NMS is the perfect solution for locations that sell medium volumes of espresso drinks and don't want to give up quality and practice.

up to
250
espressos / hour

up to
180
coffees / hour

up to
120
cappuccinos / hour

up to
60
latte macchiato / hour

Two main versions:

ONE Touch
with a large 5.7" touch display

ONE Keypad
with a traditional keypad.

The ONE Touch has an advanced user interface with a 5.7" touchscreen graphic display in full colour.

The easy-to use user interface guides the barista through the choice of products. The multi-colored page system enables the barista to choose from 48 products, each one with its own attractive user-friendly icon. Restricted access technical menus offer the machine administrator a wide range of additional functions, such as precisely defining the ingredients of each individual drink, creating new drinks, checking machine consumption, running diagnostic checks and regularly cleaning the machine with step-by-step procedures shown on the display.

POWDER MODULE. The Powder Module allows for the management of a great number of beverages in powder form. It is an external device positioned on the right hand side of the machine and consists of two hoppers that may either be used with one powder or may operate sepa-

rately with different aromatized, spiced, caramelized, chocolate-based and milk powders. An alternative high-performing solution that is well suited to all those venues wishing to offer their customers an increasingly varied and exhaustive choice of beverages.

● Included ○ Optional - Not available

NEW MILK SYSTEM. The consistency of milk-based beverages can be regulated by software, becoming a parameter easy to set up and program by the technician. The new dispensing spout, consisting of a single component that is easy to remove and take apart into two pieces, ensures perfect hygiene.

QUICK-MILK FRIDGE. A real refrigerating unit with smaller dimensions and with great aesthetics impact. Its housing is made from lightweight yet hardwearing materials; the stainless steel door has a brushed finish and its storage capacity is equivalent to 4 liters, making the Quick Milk Fridge the most satisfactory solution for storing and dispensing milk in an extremely practical manner.

COOL BOX 6.5 is a practical and quality solution for storing and dispensing milk. The modern door handle improves the ergonomics of the product. Equipped with an internal light, Cool Box 6.5 guarantees an excellent visibility to the user.

DURA-BREW. The international spirit of Egro ONE is underscored by the enhanced brewing group in stainless steel 18 grams, created for the specific purpose of enabling the preparation of coffee beverages in perfect American and North European style. The brewing unit boasts a revolutionary patented hermetic closing system, which requires less maintenance and reduces the overall running costs of the machine.
