Pure-Coffee

Coffee and hot water

Capacitive user interface with Touch technology

**NEW
COFFEE
SYSTEM**

The simplicity of versatility

Minimal design, flexibility and high performance distinguish the Pure-Coffee version of Egro ZERO. Egro ZERO has been especially designed for locations with medium-low daily consumption, which still want to offer their customers professional-quality espresso-based products.

24h recommended daily output*
100 cups

1h maximum hourly output
180 espressos
130 coffees

Versatile and multifunctional, Egro ZERO allows up to 16 different beverages to be programmed, and ensures that every cup is of the highest quality.

Egro ZERO is equipped with an intuitive user interface. The backlit keypad can be activated by a simple touch. The button identifying the chosen product flashes during the entire brewing process – an attractive but also functional detail.

Egro ZERO is particularly suited to self-service applications, thanks to its simplicity and its working area illuminated by LED lights, which ensure greater comfort and ease of use. If this option is chosen, the machine will be delivered complete with a special locking kit, to ensure secure use. The grind pulses sensor ensures perfect coffee dose consistency and precision for the preparation of the programmed beverages. The 0.5 kg coffee bean hoppers are practical

and simple to remove, thus simplifying routine maintenance. Shockproof and durable, they are made using an innovative technopolymer particularly suitable for applications involving contact with foodstuffs.

1h maximum hourly output
100 chocolate

POWDER HOPPERS. In its most complete configuration, with an in-built beverage powder option, Egro ZERO allows you to quickly prepare all kinds of chocolate beverages – hot milk chocolate, fondant chocolate, white, spiced and caramel chocolate – to flexibly accommodate even the most demanding of palates. The powder hoppers are made of an innovative technopolymer in black-fumè transparent colour particularly suitable for applications involving contact with foodstuffs.

DELIVERY CAPACITY

	ZERO Pure-Coffee
Espresso (cups / hour)	180
Coffee (cups / hour)	130
Cappuccino (cups / hour)	–
Latte Macchiato (cups / hour)	–
Recommended daily output (cups / day)	100

PERFORMANCE DATA

Hot water (litres / hour)	10
Daily cleaning time (minutes)	5

TECHNICAL DATA

Weight (lb / kg)	99.2 lb / 45 kg
Voltage (phases ~ Volts)	1N ~100V-120V / 1N~220V-240V
Power (kW)	1.8 kW / 2.2 kW / 3.6 kW
TANK version (litres)	4.5 l

FEATURES

Steam wand	○
External water wand	○
Milk frother head	–
Number of Selectable Products	up to 17
Second Grinder	○
Number of boilers	1 - 2*
Dura-Brew / Advanced brewing technology	●
ABM.07 / Advanced Boiler Management	●
V-FLEX / Voltage stabilizer	●
PLUG&BREW / Fast set-up	●
Grid System	●
Work area lighting	●
Cool Box 6.5	–
Quick-Milk Fridge	–
Self-service Option	○
Central Hot Water Outlet	●
Locking kit	○
Decaf inlet	●
Ejection Device for Waste Coffee Drawer	○
Built-in kit for Trolley	–
Water inlet connection kit	○

OPTIONAL

Cup Warmer	○
Powder Hoppers	○
Various payment systems	○

(*) with Steam wand

● Standard ○ Optional – Not available

POWER SAVING. In full compliance with the European EuP directive (Energy-using Products), Egro ZERO ensures reduced energy consumption, thanks to the use of insulated boilers and consumption levels in standby mode of less than 0.5 W, with the aim of improving environmental performance throughout the product's life-cycle.

USB PORT. Easily accessible simply by opening the front panel, Egro ZERO is fitted with a USB port, which allows the technician to quickly check the machine's vital parameters and manage the functional data directly from a PC, for greater ergonomics and speed of use.

NEW COFFEE SYSTEM. The new dispensing spout with a single component is easy to remove and take apart into two pieces for a perfect hygiene. Projected with the use of food safety material particularly resistant to elevated temperatures and made in black coloration, the new brewing spout has high characteristics of longevity, healthfulness and security.

SELF SERVICE. Egro ZERO is particularly suited to self-service applications, thanks to its ease of use and its working area illuminated by LED lights, which ensure greater comfort and ease of use. With the self-service version, the machine will be provided with a special locking kit for secure use.

DURA-BREW. Egro ZERO is characterised by precise, reliable, innovative brewing technology. The patented brewing group, in stainless steel, displays a revolutionary hermetic closing system, which requires less maintenance and reduces the overall operating costs of the machine.
